

# JAMHUNTERS: NIGHTCLUB

NEW ALBUM OUT JUNE 2ND 2017

Smooth jazz recorded live in The Village Studio. The 5th Jamhunters album differs from the previous 4 by being recorded live. No dubs !!! !!! Delicious chill / relax music, still the harmonious sounds and catchy melodies spiced with a couple of super songs feat. Christina Boelskifte.

'It's always a pleasure for me to produce Jamhunters. Really competent musicians who knows what they want. Delightful compositions, good taste - I love them, "says producer Tony Torrence, who together with composers Peter Michael and Lars Fabiansen has produced Jamhunter's 5th album: Nightclub.

Exactly as he did with the 4 first, where both Klaus Menzer (dr) and Christina Boelskifte (voc) were regular musicians. This time, bass player Peter Hansen is included, as the recording required, a double bass. The sound of Hansen's acoustic bass is perfect for the new events. 9 tracks with new musical experiences.
